

Please do not let Banks have access to the Do Not Call List. It's called the Do Not Call List for a reason. Banks have more control over our lives than they need. They control our living conditions, they fee us to death and now they was to worry us to death. Many, on this list false advertise as well. We do not want to be annoyed by Banks. Please support the wishes of the citizens of Indiana and the rest of the US. Do not let this happen. We are counting on you to protect us. Please don't let us down.
